John -

Brooke

I have been looking at your
Survey - Wi-Fi Service at the
Library in Concrete -

Wi-Fi- ^{Effect's} daily Life (NOT AT ALL)

As it stands right now - Is the
time - 6AM-10PM?
I think you need to drive through
town at 6:00AM and at night -
if this was any longer they will be
sleeping in the door ways of the
Business on main street! If its raining
and those who don't have a car which
there are a few! Will just sit where
its dry! And if I have to clean someone's
mess^{UP} I am not going to be happy!!
I realize they are people who do use it
for the right reason's - and thats fine -
But its a KNOW any longer on the hours -
that you have right now! In fact I
think it should shut off at 9pm -
And thats even too late!
